

Product name : Magnetic level LM2422 Stronghandtools

PERFORMANCE PARAMETERS

Manufacturer	Stronghandtools
Length	100 [mm]
Width	25 [mm]
Height	32 [mm]
Magnet type	Neodymium
Fixing details angle	0, 90
Maximum working temperature	$\leq 80^{\circ}\text{C}$
For the small parts holding	yes
Number of axis to attach details	1
Weight	100 [g]

The magnetic spirit level is a new solution to ensure that the workpiece is positioned accurately at one of 2 selected angles: 0° , 90° . The spirit level is light and compact, with two fixed and one variable level indicator. The groove on the surface of the spirit level gives you the possibility of attaching it to round components, such as pipes. It is a small tool with a length of 100 mm.
