

Product name : Magnetic level LM3723 Stronghandtools

PERFORMANCE PARAMETERS

Manufacturer	Stronghandtools
Length	180 [mm]
Width	25 [mm]
Height	32 [mm]
Magnet type	Neodymium
fixing details angle	45; 90; 180
Maximum working temperature	≤ 80 °[C]
for the small parts holding	yes
Number of axis to attach details	1
Weight	200 [g]

The magnetic spirit level is a new solution, which we will be sure of the exact positioning of the element at one of the 3 selected angles: 45 °, 90 ° and 180 °. The spirit level is light and compact, with three fixed and one variable level indicators. Thanks to the groove on the surface of the spirit level, it is possible to attach it to round elements, e.g. pipes. The spirit level has a tape thanks to which it can be attached to a non-magnetic material.
