

Product name : Magnetic beam for iron separation 2000x60x30/4xM10/F

PERFORMANCE PARAMETERS

Manufacturer	Enes Magnesy
Length	2000 [mm]
* Magnetic section length	1980 [mm]
Width	60 [mm]
Height	30 [mm]
With mounting hole	gwintowanym
Thread type	internal
Thread size	M10
Magnet type	Ferrite
polarity	biegunu naprzemienne
Maximum working temperature	250 °[C]
Housing	stainless steel, AISI 304 / EN 1.4301, approved for contact with food
water-resistant	yes
Przesypowy	yes
hunged	yes
work in systems with the flow of purified material	grawitacyjnym
Weight	24 [kg]
