

## Product name : Grounding magnet (300A) GM-203

### PERFORMANCE PARAMETERS

Manufacturer	Stronghandtools
Length	50 [mm]
Width	50 [mm]
Height	64 [mm]
Thread type	external, M12
Magnet type	Neodymium
Maximal hoisting capacity	34 [kg]
Maximum working temperature	≤ 80 °[C]
with separable magnetic field	yes
Magnetic field switcher	yes, one for all planes
handling mode	ręczny
Number of axis to attach details	2
For grounding	yes
Weight	400 [g]

The magnet for ground cable with detachable magnetic field is a solution that enables a quick and easy attachment of the grounding cable (and not only) to a welding machine. The magnetic fasten and appropriate preparation of the workpiece allows its easy fixing to any surface (surface, roll, etc.). The copper connector stud allows the cable to rotate about the axis, and increases the conductivity of the current. The magnet is available in two versions: for 300A and 500A.
