

**Product name : Bullet magnet 210 x 370 / 405 / M16 / F**

## PERFORMANCE PARAMETERS

Manufacturer	Enes Magnesy
External diameter	210 [mm]
Length	405 [mm]
Overall length together with thread	405 [mm]
Thread type	external
threads quantity	1
Thread length	35 [mm]
Thread size	M16
Magnet type	Ferrite
polarity	circumferential poles
Maximum working temperature	250 °[C]
Housing	stainless steel, AISI 304 / EN 1.4301, approved for contact with food
for installation in the pipeline	yes
for installation in the duct	yes
Range	max. 85 [mm]
work in systems with the flow of purified material	grawitacyjnym, wymuszonym
Weight	49 [kg]
