

**Product name : Grasshopper - welding finger with holding magnet AGH230**  
**Stronghandtools**

**PERFORMANCE PARAMETERS**

|                                  |                 |
|----------------------------------|-----------------|
| Manufacturer                     | Stronghandtools |
| Length                           | max 243 [mm]    |
| Width                            | 102 [mm]        |
| Height                           | 102 [mm]        |
| Magnet type                      | Neodymium       |
| fixing details angle - range     | from 0 to 180   |
| Maximum working temperature      | $\leq 80$ °[C]  |
| handling mode                    | manual          |
| Number of axis to attach details | 2               |
| For grounding                    | yes             |
| Weight                           | 450 [g]         |

Welding device for use with unusual details, mounted at various angles. "Welding finger" equipped with a spring pressing the element. The device is used for pre-welding of small elements such as bolts, nuts and thin plates. Adjustable V-Pad base conforms to round, square, flat and angled surfaces. Brass contacts are ideal for stainless steel work.
