

Product name : Magnetic level LM2422 Stronghandtools

PERFORMANCE PARAMETERS

Manufacturer	Stronghandtools
Length	100 [mm]
Width	25 [mm]
Height	32 [mm]
Material	Neodymium
fixing details angle	0, 90
Maximum working temperature	80 °[C]
for the small parts holding	yes
number of axis to attach details	1
Weight	100 [g]

The magnetic spirit level is a new solution, which we will be sure of the exact positioning of the element at one of the 2 selected angles: 0 °, 90 °. The spirit level is light and compact, with two fixed and one variable level gauges. Thanks to the groove on the surface of the spirit level, it is possible to attach it to round elements, e.g. pipes.
