

Product name : Magnetic filter bar (waterproof) 18 x 200 / 2 x M5in / N

PERFORMANCE PARAMETERS

Manufacturer	Enes
External diameter	18 [mm]
magnetic drums diameter	18 [mm]
Length	200 [mm]
magnetic section length	163 [mm]
With mounting hole	gwintowanym
threads quantity	2
Thread type	internal, M5
thread length	5 [mm]
Material	Neodymium
polarity	bieguny obwodowe
Maximum magnetic field over the middle poles	0,54 [T]
Maximum working temperature	80 °[C]
Housing	stainless steel
water-resistant	yes
Waterproof	yes
for installation in the pipeline	yes
for installation in the duct	yes
to be fixed inside the conveyor belt	yes
Zasypowy	yes
hunged	yes
Range	max. 18
work in systems with the flow of purified material	grawitacyjnym, wymuszonym
Weight	340 [g]
