

Product name : One-level magnetic grate for funnel phi 280 / N

PERFORMANCE PARAMETERS

Manufacturer	Enes
External diameter	280 [mm]
magnetic drums diameter	32 [mm]
Height	50 [mm]
Material	Neodymium
Flow surface	304,6
Number of magnetic bars	4
polarity	bieguny obwodowe
Maximum magnetic field over the middle poles	0,75 [T]
Maximum working temperature	80 °[C]
Housing	stainless steel
one-level	yes
Przesypowy	yes
for installation in the pipeline	yes
for installation in the duct	yes
Zasypowy	yes
work in systems with the flow of purified material	grawitacyjnym, wymuszonym
Weight	3.8 [kg]
